A&B Stainless Valve

520 County Rd 513
 Califon, NJ 07830
Exhibit Contact: Brian Bergen
 Phone: 908.832.7121
 Email: brian@abstainless.com

A&B Stainless Valve is a valve remanufacturing and modification company with over 50 years of experience. A&B is the only corporately approved remanufacturing facility worldwide for DuPont, Chemours, and Veolia. In addition to valve remanufacturing, A&B maintains and warehouses its own inventory of more than 30,000 valves, in addition to managing 38 customer-owned valve inventories.

ALL4 Inc.

2393 Kimberton Road
 Kimberton, PA 19442
Exhibit Contacts: Frank Dougherty/Phone: 281.201.1242, David Ross/Phone: 610.422.1103 & Molly McHale/Phone: 267.921.1050
 Email: fdougherty@all4inc.com; dross@all4inc.com; mollymchale@all4inc.com

ALL4 is a nationally recognized environmental consulting firm. We have the resources and expertise of a large firm but the flexibility of a small business. As a result, we can provide customized solutions for our clients, anchored by a commitment to transparency and communication every step of the way. Working with ALL4, you'll find a partner that's dedicated to helping your organization make informed choices about a range of regulatory obligations.

AWT Environmental Services, Inc.

32 Birch Street
 Old Bridge, NJ 08857
Exhibit Contacts: Joseph Postorino, Thomas Russo, Kristen Wolansky
 Phone: 732.613.1660
 Email: jpostorino@awtenv.com; trusso@awtenv.com; kwolansky@awtenv.com

AWT Environmental Services is a full-service environmental remediation and industrial maintenance contractor headquartered in NJ with a branch office in Kansas City, KS and satellite office in Horry County, SC. We have been providing cost-effective and innovative solutions to environmental consultants, fortune 100-500 companies, developers, insurance companies and financial institutions for 43 years. We maintain our A901 transporter license (NJ) and transporter permits in multiple states surrounding our offices. We are a certified Small Business Enterprise (SBE) with substantial insurance limits and a high-capacity bonding line. Our service offerings include drilling/injection, excavation/support/dewatering, treatment systems (soil, vapor and groundwater) and industrial cleaning/maintenance (high pressure water blasting, crude/refined oil tank cleaning, railcar cleaning, liquid vacuum services) as well as landfill services, dredging and shoreline stabilization.

CASCADE

122 Burrs Rd, Suite E,
 Westampton, NJ 08060
Exhibit Contacts: Kevin Corradino, Brenna Garmon & Nicole Bryson
 Phone 609.714.2420
 Email: kcorradino@cascade-env.com; bgarmon@cascade-env.com; nbryson@cascade-env.com

Cascade Environmental is a field services contractor that partners with our clients to provide seamless environmental and geotechnical solutions, from concept to completion. Over the last 30+ years, Cascade has grown from a Northwest US regional drilling company into a national, full-service organization offering innovative solutions for every step of your project, from environmental and geotechnical drilling to advanced site characterization and in situ and ex situ remediation applications. Our diverse portfolio of environmental, investigation and remediation services enable us to complete even the most challenging projects on time and on budget.

ChemOps Training | Engage Higher Performance | powered by SOCMA

1400 Crystal Drive, Suite 630

Arlington, VA 22202

Exhibit Contacts: Sarah Williams, Emylyn Noma Reyes & Joe Dettinger

Phone: 571.348.5111

Email: swilliams@socma.org; enoma@socma.org; jdettinger@socma.org

Designed by industry, for industry, ChemOps Training is the essential training tool for chemical manufacturers. With a program that has been carefully developed by experienced industry professionals, this tool represents the very best way to provide your operations team with an up-to-date and applicable education.

Key Features:

- **Curriculum Segmentation:** Structured learning paths focused on fundamental concepts.
- **3D Animations:** Targeted lessons, with visual representation of process equipment to enhance comprehension.
- **Self-Guided Assessments:** Practical exercises to reinforce learning and gauge understanding.
- **Progress Tracking:** Monitor user development and module completion.

The training tool can also be adapted to your business needs, allowing you to customize your program and select modules that are relevant to the employees you are educating. Use it exclusively, or to supplement your own in-house training!

Clean Earth™

933 First Avenue, Suite 200

King of Prussia, PA 19406

Exhibit Contacts: Robert Morrow/Phone: 267.201.5019 & Bob Sims/Phone: 267.907.6061

Email: rmorrow@cleaneearthinc.com; bsims@cleaneearthinc.com

Clean Earth's highly experienced team helps customers navigate everything from the simplest waste management needs to the most complex environmental waste challenges. Delivering one of the largest networks of treatment, recycling, and sustainability services, our experts apply industry-leading solutions at every stage of your waste journey. With Clean Earth, you'll have the best working for you.

Eii, Inc.

530 South Avenue E

Cranford, NJ 07016

Exhibit Contacts: Steve Samra/Phone: 908.413.4317 & Ron Smith/Phone: 908.202.1519

Email: ssamra@eiielectric.com; rsmith@eiielectric.com

Eii, Inc. is a unique & experienced electrical and mechanical contractor dedicated to quality construction and efficient management of resources. Our track record of major projects – including new construction and plant maintenance has earned us a reputation for being creative, technologically advanced and extremely responsive to our customers.

Eii, Inc. employees are highly skilled and experienced professionals with innovative estimators, project managers, supervisors and many others together forming a team that thrives on performing a job safely and with the utmost efficiency. Our competitive advantage stems from the atmosphere of mutual trust and respect that permeates throughout our company.

The care and concern that we have for our clients, employees and subcontractors greatly enhances our ability to deliver quality projects safely, on time and within budget.

ERM

200 Charles Ewing Blvd, Suite 160

Email: christopher.furlong@geosyntec.com; anita.locke@geosyntec.com

Geosyntec is a consulting and engineering firm that works with private and public sector clients to address new ventures and complex problems involving our environment, natural resources, and civil infrastructure. With a combined staff exceeding 2,600 engineers, scientists, and related technical and project support personnel, we serve our clients from more than 130 offices in the United States, Canada, the United Kingdom, Ireland, Sweden, Spain, Finland, the United Arab Emirates, Saudi Arabia, and Australia.

Gibbons P.C.

One Gateway Center

Newark, NJ 07102-5310

Exhibit Contacts: Sally C. Stranges/Phone: 973.849.1728, Raymond Pomeroy/Phone: 212.613.2019,

Michele Glass/Phone: 973.596.4423, Bill Hatfield/Phone: 201.618.8298 & Camille Otero/Phone: 973.596.4509

Emails: sstranges@gibbonslaw.com; rpomeroy@gibbonslaw.com; mglass@gibbonslaw.com; whatfield@gibbonslaw.com; cotero@gibbonslaw.com

The Gibbons Environmental Group is recognized among the region's top-tier environmental practices, with talented attorneys who have decades of environmental experience in both the public and private sectors, some of whom have strong working ties to regulatory agencies. Group members handle all areas of environmental law, most recently playing leading roles in various multiparty remediation matters that have arisen in large and complex sediment remediation sites in New Jersey and New York. Group members also work closely with environmental consultants to assist clients in identifying and managing environmental risk in real estate and corporate transactions to limit potential exposure.

Our sophisticated client base has repeatedly turned to our attorneys in multifaceted environmental litigation, in which we have served in various capacities, including common counsel or lead counsel in developing strategy for groups of potentially responsible parties (PRPs). This level of experience also serves our clients well in individual representations.

Clients of the Gibbons Environmental Law Group include Fortune 500 companies, regional mid-market companies, and closely held businesses that operate in all sectors of the economy.

Integral Consulting Inc.

704 E Main Street Suite M

Moorestown, NJ 08057

Exhibit Contacts: Erin Palko, Zach Gostanian, Michael Martin, Patrick Gwinn & Jeffrey Marsh

At Integral Consulting Inc., we believe environmental stewardship and societal progress go hand in hand. With a team of over 250 scientists, engineers, and technical specialists, we deliver innovative, science-based solutions to today's most pressing environmental, health, and natural resource challenges.

Since 2002, we've built a collaborative, values-driven culture grounded in integrity, inclusivity, and mutual respect—for our people and our partners. Our work spans complex site investigations, risk assessments, ecosystem restoration, and strategic regulatory support.

Our multidisciplinary teams thrive on technical excellence, creative problem-solving, and meaningful partnerships that drive real-world results.

We're more than a consultancy—we're a community united by purpose. Together with our clients, we address yesterday's environmental impacts, meet today's demands, and help shape a more sustainable tomorrow. **Discover how we bring science to life:** www.integral-corp.com

Montrose Environmental Group

500 Horizon Dr, Suite 540

Robbinsville, NJ 08691

Exhibit Contacts: Mike Vanderslice, Carrie McGowan & Steve Surman

Phone: 609.890.7277

Email: mvanderslice@montrose-env.com; carriemcgowan@montrose-env.com; stsurman@montrose-env.com

What makes Montrose unique is our complimentary 'environmentally focused' service offering. Our Environmental Engineering and Consulting team delivers turnkey project lifecycle management of your most complex facility challenges. When the need arises, other Montrose lines of business like CTEH for Emergency Response and Incident Command, and ECT2 for specialized water-treatment and remediation solutions, can seamlessly be introduced to support the client's best interest. In addition, Montrose's Advisory Services team is readily available to support compliance audits, data validation needs, H&S reviews, and facility site plans and permits. Our formidable regional presence offers you a one-stop shop of highly trained professionals and subject-matter experts effectively working with both public- and private-sector clients.

New Jersey Clean Energy Program

317 George Street, Suite 520
