Sponsored By AVAILABLE		Alan Evankovich, Senior Principal Engineer, Javan Engineering OSHA's "Recognized and Generally Accepted Good Engineering Practices" and the importance of creating, maintaining and having access to documentation as it pertains to your plant and process operations. This session will help you determine if your facility is up to date on the kinds of documentation required by OSHA should an audit be necessary, preventing any disruption in operation or worse.
11:30 AM	12:00 PM	Overview of New Jersey's On-site Consultation Program
Sponsored By AVAILABLE		Mark Wadiak, Assistant Director, New Jersey Department of Labor & Workforce Development During this session you will learn about all the training programs and resources available to you at your facility by NJ Department of Labor & Workforce Development.
12:00 PM	1:00 PM	Networking Lunch
Sponsored By AVAILABLE		
1:00 PM	2:00 PM	Internal Environmental Auditing: Best Practices for the Audit Process & Protecting the Findings
Sponsored By 		Katherine L Vaccaro, Esq., Partner, Manko, Gold, Katcher & Fox, LLP Michael Nines, P.E., LEED AP, Technical Consultant, Manko, Gold, Katcher & Fox, LLP There's a right way and a wrong way to conduct an audit, and the difference can have significant compliance implications for your facility. Kate and Mike will address the importance of clearly defining the audit scope from the start, the benefits of getting a lawyer involved early on to make sure the information collected is protected under attorney privilege doctrines, and, most critically, what to do when an audit reveals potential noncompliance with applicable regulatory or permit-based requirements. Mike has led internal audits for more than 100 companies, and Kate has extensive experience in working with companies to make sure audit findings are presented properly, including identifying when they need to report.
2:00 PM	2:45 PM	Process Safety Management & Mechanical Integrity
Sponsored By AVAILABLE		Mark Borsky, Technical Manager, Banks Industrial Group, LLC Ajay Patel, Business Development Manager, Banks Industrial Group, LLC This session will reaffirm the importance of PSM, the element of Mechanical Integrity, the relationship to loss of primary containment and the preventative & mitigative solution options that are available to you.
2:45PM	3:00PM	Break
3:00PM	3:45PM	Future Proof Your Infrastructure
Sponsored By AVAILABLE		Dr. Vasileios Nasis, President, Netronix Devesh Sinha, Associate, Langan Regulatory compliance activities that leverage environmental health and safety monitoring (EHS) are a complex task that require simultaneous gathering and analysis of data collected from different sources or locations. The data can be collected from different areas of a building or between facilities across varying geographic locations. Attendees will learn about innovative approaches to continuously monitor accurate and precise indoor air quality parameters in any infrastructure with advanced information and analytics that result in better indoor spaces, everywhere in the world.
