

Coronavirus (COVID-19)

Information

Update 24: April 20, 2020

Good afternoon,

Yesterday, Governor Murphy, Governor Cuomo, Governor Lamont, Governor Wolf, Governor Carney, Governor Raimondo and Governor Baker announced appointees to the Multi-State Council to Get People Back to Work and Restore the Economy. **New Jersey will be represented by George Helmy, Chief of Staff to the Governor; Dr. Richard Besser, President and CEO of the Robert Wood Johnson Foundation and former Acting Director of the Centers for Disease Control and Prevention (CDC); and Jeh Johnson, Former United States Secretary of Homeland Security under President Barack Obama. For the full list of appointees [click here](#).**

Unlike President Trump's [Great American Economic Revival Industry Groups](#), the Multi-State Council to Get People Back to Work and Restore the Economy does not include current industry executives among its membership.

President Trump unveiled his administration's [Guidelines for Opening Up America Again](#), a three-phased approach based on the advice of public health experts. These steps will help state and local officials when reopening their economies, getting people back to work, and continuing to protect American lives.

“Personal health creates economic health.” This will drive Governor Murphy’s mindset as his team begins to finalize the draft of the blueprint to reopen the state, which will be available later this week. It will have the benchmarks the state will need to see to reopen. Governor Murphy wants to secure the public health situation to raise consumer confidence as New Jersey reopens its economy in alignment with the region’s efforts.

As the state and the region begin to contemplate “reopening the economy,” businesses are urged to start preparing their back to work plans that include phased returns to the office and some employees still working from home at first where possible.

CLOTH MASK SUPPLY AVAILABLE

The American Chemistry Council is working with FEMA to provide free cloth face masks for their members and CCNJ members. There is no fee for the cloth masks.

FEMA will distribute the masks from the manufacturer to the company. **ACC asks that companies designate only one shipment location and point of contact (POC) per company to streamline the process. Each company will be responsible for allocating and shipping masks to their US based facilities. If you would to place an order, please**

email emontero@chemistrycouncilni.org, with the following information by 10AM on Wednesday, April 22:

| | |
|--|--|
| Company Name | |
| Attn: POC Name | |
| Ship to Address Line 1 | |
| Ship to Address Line 2 | |
| City | |
| State | |
| Zip Code | |
| POC Email Address | |
| POC Phone Number | |
| Number of Employees Requiring Masks | |

Please note this is not a request for qualified PPE. These are not flame-retardant masks. They are an anti-microbial t-shirt type material, good for 15 washes, packed 5 masks per package with 100 packages per box (500 total masks per box). These masks are intended to satisfy [CDC recommendations to wear cloth masks](#) in places where social distancing is difficult to maintain and could also be used in response to local orders to wear cloth masks. This is also a rolling request; additional phases of mask rollout will occur as return-to-work policies are implemented.

All email requests received by 10AM on April 22 will be forwarded to ACC by the deadline.

OSHA INTERIM GUIDANCE

Last week, OSHA issued guidance on the “Discretion in Enforcement when Considering an Employer’s Good Faith Efforts During the Coronavirus Disease 2019 (COVID-19) Pandemic” In light of the coronavirus disease 2019 (COVID-19) pandemic, OSHA understands that some employers may face difficulties complying with OSHA standards due to the ongoing health emergency. Widespread business closures, restrictions on travel, limitations on group sizes, facility visitor prohibitions, and stay-at-home or shelter-in-place requirements may limit the availability of employees, consultants, or contractors who normally provide training, auditing, equipment inspections, testing, and other essential safety and industrial hygiene services. Business closures and other restrictions and limitations may also preclude employee participation in training even when trainers are available. In other situations, access to medical testing facilities may be limited or suspended.

Examples of Situations Where Enforcement Discretion Should be Considered:

- ***Annual Audiograms***
- ***Annual Process Safety Management Requirements***
- ***Hazardous Waste Operations Training***
- ***Respirator Fit Testing and Training***
- ***Maritime Crane Testing and Certification***
- ***Construction Crane Operator Certification***
- ***Medical Evaluation***

[Click here to access the OSHA Memo.](#)

NEW JERSEY COVID-19 SUPPLIER REGISTRY

New Jersey created a COVID-19 Supplier Registration Form which was developed by the New Jersey Economic Development Authority (NJEDA) to create a registry of potential suppliers of critical PPE, medical devices (e.g., ventilators) and other high-demand raw materials.

To register as a supplier visit: <https://covid19.nj.gov/forms/supplier>.

“STAY AT HOME” EXECUTIVE ORDER 107 STILL IN PLACE

The “Stay at Home” [Executive Order No. 107](#) remains in full effect with additional requirements as stated in EO 122.

Employees reporting to work are permitted to travel to and from their place of business. [Businesses are encouraged to give each employee a letter indicating that the employee works in an industry permitted to continue operations, and their shift.](#) Essential employees should have the company letter, and company ID accessible while driving to and from work, so they can present it with their license if necessary. We suggest the [DHS Guidance to help with the letter](#).

Below you will find new information **highlighted in blue** added since the last update. As well, take some time and explore the many links and information provided below and in previous updates. The state’s main COVID-19 information portal is located at <https://covid19.nj.gov/>.

- [FEMA Administrator April 15, 2020, letter to Emergency Managers](#)

First, let me thank you for all the incredible things you have done, and continue to do, for the American people. I am thankful for your tireless efforts under these unprecedented and demanding circumstances and for embrace of the guiding principle: locally executed, state-managed, and federally supported emergency response and recovery. Your heroic and extraordinary efforts across the country inspire me daily. Please keep up the great work.

- [EPA Announces Enforcement Discretion Policy for COVID-19 Pandemic](#)

The U.S. Environmental Protection Agency (EPA) is mindful of the health and safety of the public, as well as our staff, and those of Federal Agencies, State and Local Governments, Tribes, Regulated Entities, Contractors, and Non-governmental Organizations during the COVID-19 pandemic. The agency is taking these important considerations into account as we all continue our work to protect human health and the environment. Accordingly, EPA is announcing a temporary policy regarding EPA enforcement of environmental legal obligations during the COVID-19 pandemic.

- [New Jersey Department of Health COVID-19: A Guide for Businesses March 2, 2020](#)

Many employers and businesses in New Jersey are concerned about the current outbreak of the 2019 Novel Coronavirus (COVID-19) and potential impacts to their business communities and wish to take appropriate steps to mitigate any risks. The Centers for Disease Control and Prevention (CDC) is working hard to learn as much as possible about this COVID-19 so that we can better understand how it spreads and characterize its associated illness. The New Jersey Department of Health is also working hard to develop guidance and education materials, in the face of evolving information.
